

EXPERIMENT 1

Aim

To design an ER diagram for an Indian e-commerce platform containing Customer, Address, Order, OrderItem, Seller, Product, Category, Payment, and Delivery. The diagram demonstrates keys, a multivalued attribute, a weak entity, product specialization, cardinalities, and participation constraints.

ER Diagram — Indian E-Commerce Platform

ER Notation

Rectangle: strong entity; double rectangle: weak entity; oval: attribute; double oval: multivalued attribute; diamond: relationship; double diamond: identifying relationship; underlined attribute: primary key; triangle: ISA/specialization; 1:1: one-to-one; 1:N: one-to-many; M:N: many-to-many.

Result

The ER diagram for the Indian e-commerce platform was designed with the required entities, attributes, relationships, cardinalities, weak entity, multivalued attribute, and product specialization.
